Wine Alcohol Data

Current Vintage - 2011

Producer - Gabriel Meffre

Legal Designation - Quebec

Grape Variety - Grenache Gris, Shiraz/Syrah

Blend - Grenache and other grapes

Winemaker - Veronique Torcolacci

Agent - Guy Anderson Wines

Vinification Details - Each grape variety is vinified separately with the aim to extract its individual character and aromas.

Fermentation is at a high temperature of between 28-30°C and the grape skin cap is pumped over twice a day in order to maximise the extraction of the different components. 35% of the blend is matured in oak barrels for 8 months in order to provide rich aromas, balance and structure. Older barrels of 2-3 years were chosen over newer oak to soften tannins.

History - Gabriel Meffre is based in Gigondas in the heart of the Rhône Valley. One of the largest negociants in the Rhône, it buys in wine from around the region, as well as from its own estates, and is well-known in both France and export markets as a source of quality wines. In recent years, Gabriel Meffre has successfully developed La Châsse range of wines from the Rhône Valley and neighbouring Languedoc.

Regional Information - A true classic French wine that is one of the best selling brands in the UK. The wine is carefully selected from some of the best terroirs of the Côtes du Rhône appellation. The winemaking team blend the various wines to deliver a consistent wine that communicates the wonderful character and typicity of the region.
